

GreenTick™ Acrylic

Product Information

Green ✓ Tick™ Acrylic

The conscious environmental tick of approval

Environmentally Friendly, Sustainable Alternative

GreenTick Acrylic™ is produced using a unique process, utilising discarded acrylic offcuts and scraps - instead of being possible landfill - and transforming it into a high-optic, economical, quality cast acrylic sheet with a wide variety of applications and uses including: Display Stands, POS/POP Displays and Signage.

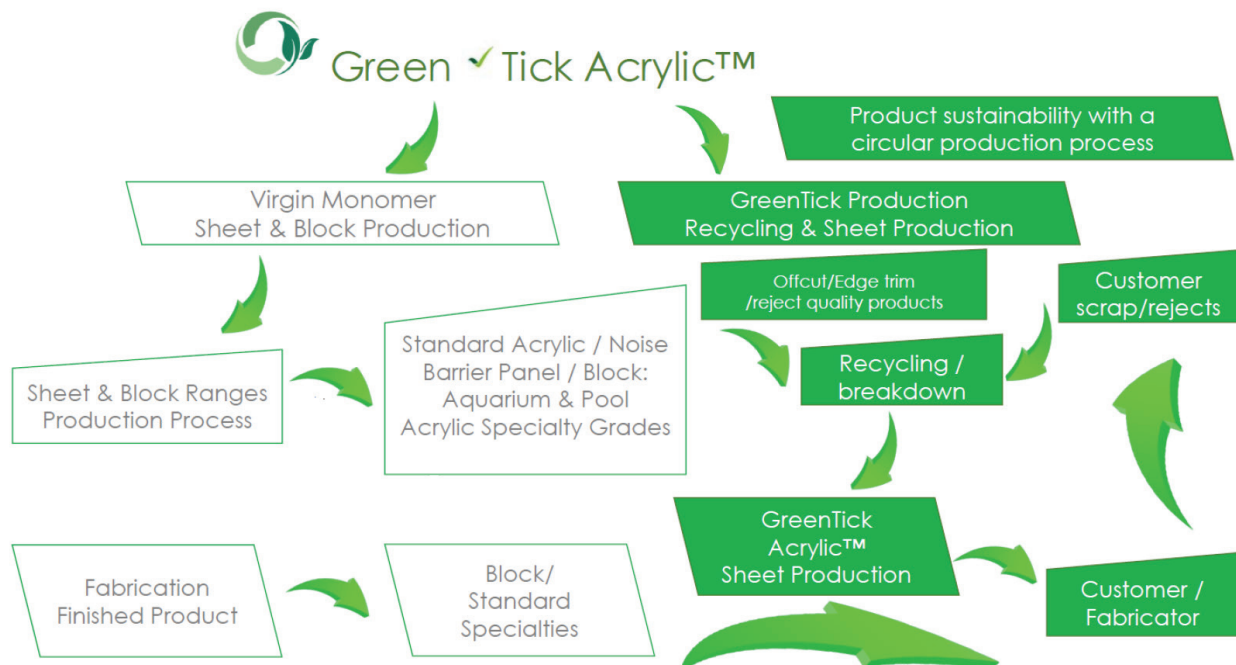

GreenTick Acrylic™ is recycled, not regrind and is made from a minimum of 50% recycled material, reducing the environmental footprint.
