

Re-Consider The Future

Product Information

PALBOARD Co-EX multilayer panel

Regrind

99%

- Our production setup reduces the waste throughout entire process to less than 1%.
- All our products are regrindable & recyclable when reaching the end of their service life time.

Reduce

No toxic substances are released

- Dibutyltin-Free and DEHP-Free.
- Lower CO2 emission.
- Committed to REACH & ROHS Reg.

Recycle

Up to 70% recycled material

We use recycled materials from:

- External suppliers.
- Cut off collected from our customers.
- Reprocessed scraps from our own production.

Our goal is to reduce our ecological impact on the climate and the environment.

We use sustainable, greener production methods with a lower environmental impact, and promote an ecofriendly products portfolio.

Our green-purpose is to encourage a sustainable environment and to reduce our ecological footprint by delivering recyclable and regrindable solutions.

Palram provides individuals and communities with the means to be eco-friendly. Consider the next generation. Think Palram.
